Purse for Indianapolis Sweepstakes Will Reach \$50,000.

MORE INTEREST THAN EVER

Keen Competition and Great Speed Indicated for Memorial Day Race.

indianapolis, March 30 .- Late in the year 1910, when the announcement of the first mile international sweepstakes at the ing world sized up the proposition of giving \$5,000 in prizes and a race of 500 in length, and after two or three gasps decided that it might be a good thing to see after all. So it came about that the first 500-mile international sweepstakes on last Memorial Day drew the largest crowd of motoring "fans" ever assembled in any one inclosure to witness any sort of auto-

The question in the mind of the public as to how many manufacturers would dare to attempt a contest of this kind was answered readily when forty-six starters were named for the long race. The other ques tion, as to whether or not spectators would be attracted to such a contest, was answered when about ninety thousand persons filed through the gates. Indianapolis pever saw so many strange faces

The owners of the speedway, in view of the fact that the first race was so successmore atterward, would be the proper thing to offer their patrons. Public pinton was sounded thoroughly and bore the idea of the speedway management. first and greater. It seemed alnest impossible to improve upon many ed to increase the purse to \$50,000. giving the winner \$20,000 instead of \$10,000 and every car which is entered for the sec-It is believed that esting than that of last year beand note the individual per of the various cars without be ing subjected to the strain of constant

Despite the fact that these conditions have been imposed upon the manufacturers, it is certain at the present time that the full field of thirty starters will be entered by May 1. It is estimated by various critics and racing drivers that the speed of faster than that of the last race.

Ray Harroun, who won the last 500-mile m to believe that the record will be beaten. be almost certain because of the fact that all of the entrants are anticipating greater arder requirements than they did last in spite of this precaution.

Before the first 500-mile race the average speed was very indefinite because there had been no previous contest of the same length upon which to hase the action of the cars. In the coming race, however, this condition is practically overcome because the contestants have a knowledge of what was age of 1912. done in the first contest of the kind. Whether or not they will be benefited by it remains to be seen, but from all reports most of the entries for this second race are cars which are larger and faster than those of last year, and the race prospects are greater than before.

GOODYEAR TIRES POPULAR Many Autos in Shows Equipped with This Make.

Records have been made of the tire equipment of cars exhibited at sixty-four automobile shows during the show season

At the sixty-four shows 6,597 cars were The tire equipment of this great vided among twenty-nine makes. Goodyear no-rim-cut tires were the equipment of 2,-24 cars, or 34.6 per cent of all the cars shown. One hundred and twenty-seven leading manufacturers of American cars bave contracted for Goodycar tires in 1912. Goodyear's nearest competitor in tire equipment of show cars had 99514 sets of tires at sixty-four shows, or 15 per cent of the whole. The next formidable competiter had 14.6 per cent, with 967 sets.

shows is toward the general use of nonskid types of tires A large majority of the Goodyear no-rim-cut tires on show cars were of the non-skid type. Goodyear men attribute the immense popularity of the company's product to the no-rim-cut feature, the extra wear and cushion given by the le-per cent oversize feature, and to the general care exercised in keeping quality to the highest possible standard.

EXPORT TRADE INCREASES United States Among Leaders in Selling Autos Abroad.

According to statistics compiled by "Th Motor World," the world's exportation of total of more than \$90,000,000. The trade is practically controlled by four countries. Prance, United States, Germany and Great Britain; and although France, as has been the case since the inception of the automo bile industry, leads the list of automobile exporting nations, it barely held its own during the year 1911, its foreign trade increasing only .75 per cent.

On the other hand, the United States be came possessed of seven-league boots and went upward with glant strides, its increase during the twelvementh amounting to 45 Der cent, whereas Germany, which also made great gains, increased only 24 per cent, while England's increase fell just short of 23 per cent.

The totals of the four countries are as

Country. France United States Germany Great Britain		16,581,000 15,928,585	Gain. .75 45.00 84.20 22.95
Total		\$86,974,645

Demarest Plays Slow Billiards, Preparing for Match.

HOPPE TAKING REST CURE

Championship Match for 18.2 Balkline Title To Be Played April 11.

Calvin Demarest, challenger of Willia Hoppe for the world's championship at 18.2 balkline billiards, has been practising for two weeks at George F. Slosson's room. During that time he has not shown anye thing like the sensational work he had previously done at Chicago. His grand average, however, has been above 19, which is good, considering that he has gone as lov as 14 and no higher than 31. He expressed unqualified confidence in his ability to win the pending match, which will be played in infinitely better. For instance, every winter the grand ballroom of the Hotel Astor on April 11, one week from next Thursday, crippled, and it has been necessary to send He says he is feeling well, and his stroke is just as good as it was before he came to To climatic difference he from the heat. During the hot spells last ascribes his inability to equal here what ne maintains that conditions are and will be

For over a week Demarest has had Albert G. Cutler as a nightly opponent. With an excellent average of over 26, Cutler was the winner of one game in the series. years. In certain lines of industry the life Demarest's style has enthused spectators, When playing well his movements have been rapid and his execution brilliant to an extreme

Since his defeat by George Sutton, Willie Hoppe has been taking a rest. At home, where he has a table, he has taken cue exercise daily, but otherwise has indulged in no preparation for his contest with Deniarest. He will begin regular practice at his room, formerly McGraw's, to-morrow

On Thursday night, at the formal opening of the new room of John Cline, father of Harry Cline, in the Continental Hotel, Philadelphia, he showed that he was in good form by defeating Harry Cline by 200 to 117 and averaging 28. Among other experts who performed at that opening were Dr. l. t. Misl, the amateur, and John Daly, former professional champion at three cushlons. Dr. Mial won from J. Cons Morton, of Philadelphia, at 18.2 balkline, Daly was beaten one point in a game of twenty-five three cushions by Frank Kime le, of Philadelphia.

George Sutton has notified the Bruns wick-Balke-Collender Company that he has cepted the challenge of Ora Morningstar for the 18.1 balkline championship and has named May 18, at Recital Hall, Chicago, as the time and place for the contest for the Morningstar, who is now a resident of Pittsburgh, will be near his boyhood home. Rochester, Ind., when he gets to shots he has few equals, and in all branches of billiard execution he is one of the most resourceful players in the world, remarked: "I can't understand why he is not all-around champion of the world. His physical strength is remarkable, and his skill corresponds, but his mental force to utilize his strength and apply his skill appears to be lacking.

MONMOUTH HORSE SHOW PLANS. Elaborate plans for the next Monmouth

County Horse Show were developed at the annual meeting of the association, held at No. 751 Fifth avenue. The election of oficers and directors for the coming year resulted as follows: President, Harry Content; vice-president and general manager. James T. Hyde; secretary and treasurer, P. J. Carey. The executive committee which will have charge of the kind of boosters. After the baseball include Harry Content, Joseph J. O'Donohue, jr.; B. J. Greenhut, James T. Hyde and P. J. Carey. No-Rim-Cut Tires 10% Oversize

The Show-Car Tire

One-third of all cars at the 55 Shows held this year were equipped with Goodyear tires.

More cars were shown on Goodyear tires than on any other two makes combined.

That's on show cars, remember - on cars with their best equipment.

And 127 leading makers of cars have contracted for these tires for their 1912 models.

Out-of-Date Tires

Tires that rim-cut are distinctly out-of-date.

So are tires just rated size. Too many blow-outs result from overloading. No-Rim-Cut tires make rimcutting impossible. They are 10

per cent oversize. And these patent tires now cost no more than other standard tires.

Any motor car owner, when he knows the facts, will adopt No-Rim-Cut tires.

1.000,000 Used

Over one million Goodyear tires have been used on some 200,000 cars.

As a result these tires now outsell any other tire in existence.

The demand in two years has multiplied six times over. It has trebled in the past year

alone.

No-Rim-Cut Tires With or Without Non-Skid Treads

Our 1912 Tire Book, based on making, is filled with facts you should know.
